7,5W Diled GU10 575Im 2700K 36° dim

Our 7.5W Diled GU10 is the successor of the successful Haled series from Sigor. The unique reflector perfectly imitates that of a halogen version. The reflector can be tilted up to 50°. The high colour rendering index guarantees a colour rendering that is almost similar to daylight. The recessed downlight has a brilliant light colour of 2,700K and makes everything shine in a beautiful light. The GU10 is equipped with the latest LED technology and is therefore highly compatible with dimmers. Particularly important in the property: we offer a 3-year guarantee and vouch for the high-quality workmanship and durability.

Recommended dimmer: www.sigor.de/dimmerliste
