**Einbauleuchte 68 Diled Eckig 6W 380lm 3000K**

Our 6W Downlights 68 Diled are characterized by a compact design with an ultra-flat installation depth of 32mm and direct connection to 230 V. Visually, they are almost indistinguishable from a halogen lamp. Thanks to the radiation via the reflector, the light is completely glare-free. The recessed downlight has a brilliant light color of 3,000K and lets everything shine in a beautiful light. Our Diled sets the tone in a white die-cast housing. The recessed luminaire is equipped with the latest LED technology and is therefore highly dimmer-compatible. Power is supplied via an integrated driver.
