10W Argent GX53 630lm 2700K 30° dim

Our 10W **Argent GX53** is our LED replacement illuminant for the Micro-Lynx. It is equipped with the latest LED technology and is therefore highly dimmer-compatible.

The low power consumption of the LED is confirmed by the good energy efficiency class. The light source has an opalized glass for shadow-free illumination. The lumen package of our Luxar can be compared with a 13W CFL Micro-Lynx.

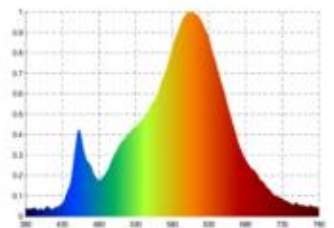

Dimmable: yes
