9W Argent Modul 550lm 2800-2000K 60° dim

Dimmable: yes

Our 9W **Argent recessed module** is designed for the conversion of standard recessed luminaires. The high color rendering index of RA>90 withstands the highest demands on the light. Due to the optimal thermal management, a very long service life can be achieved. The module has the Dim-To-Warm technology and is characterized by the reduction of the light color when dimming from 2,800K to 2,000K. The lamp changes the light color when dimmed just like a traditional incandescent lamp. The module's many variations in light color and beam angles allow it to cover a wide range of applications. The lumen package of our Argent module can be compared with a 75W conventional GU10.

Recommended dimmer: www.sigor.de/dimmerliste

550 lm	luminous flux [lm]
9,00 Watt	rated power
75 Watt	equivalent incandescent lighting
2800-2000 K	colour temperature
Ra>95	colour rendering
<6 sdcms	colour consistency
60°	beam angle
Anschlussleitu	base
Modul	outer bulb
klar	type of glass
50 mm	length
50 mm	diameter
IP20	type of protection
-10° - 40°C	temperature range in operation
0.85	power factor
230 V AC	voltage
50/60 Hz	operating frequency
450 mA	current
9 kWh/1000h	energy consumption
<0.5 s	warm-up time up to 60% of the full light output
<0.1 s	starting time
Ø 50.000 h	nominal life time
L70B50	rated life time L70/B50
0.7	lumen maintenance factor at the end of the nominal life

Spectral power distribution
in the range 180 - 800 nm
