9W/m EXPERT SLIM LED-Streifen 2700K 5m

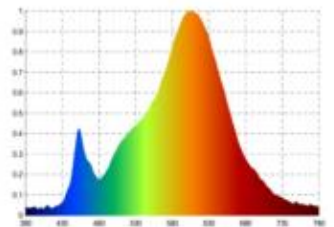

Our 9W **EXPERT SLIM 4mm 24V** belongs to our special strips. With them, you will find solutions for special applications. The very narrow strip is particularly suitable for discreet light lines. The slim version also allows lighting solutions in extremely small spaces. A narrow binning with only 5 SDCM guarantees a homogeneous light colour both on the strip and with different strips of this type. Particularly important in the contract sector: we offer a 5-year guarantee and vouch for the high-quality workmanship and durability of these strips. For easier installation and further processing, we have provided the strip with a feed and a secondary feed of 1 metre each.
