5W Linienlampe Glas klar S14s 500mm 350lm 2200K

Our 5 W LINE LAMP GLASS CLEAR is the perfect replacement for the classic line lamp. The illuminant is equipped with the latest LED technology and thus has a long service life.

Furthermore, the use of the technology guarantees a flicker-free operation. The illuminant has a crystal clear glass for shadow-free illumination. The low power consumption of the LED is confirmed by the good energy efficiency class. The lumen package of our LINE LAMPS can be compared with a 40 W conventional line lamp.
