14W/m Hochvolt LED-Streifen 2700K 25m

Our 14W **HOCHVOLT IP65** open up completely new possibilities for realizing your lighting project. This is due in particular to the maximum operable length of 50 meters with only one 230 V supply.

The strips are available in two versions: 8W/m and 14W/m. The high-voltage strips are available in the standard light colors. Their IP65 protection makes them ideal for outdoor use. They offer excellent color rendering of Ra > 90. You receive our high-voltage strips either as a 25m roll, 50 m roll.
