8W/m Hochvolt LED-Streifen 2700K 25m

Our 8W **HOCHVOLT IP65** allow completely new possibilities to realize your lighting project. This is especially due to the maximum operable length of 50 meters with only one feed to 230V.

The strips are available in two variations: 8W/m and 14W/m. You can get the high-voltage strips in the common light colors. The IP65 protection makes them excellent for outdoor use. They offer excellent color rendering of Ra > 90. You can get our high voltage strips either as 25m roll, 50m roll.

Especially important in the object: we offer 5 years warranty and vouch for the high quality workmanship and durability of these strips.
