### 4,5W Kugel Filament opal E14 470lm 2700K dim

Dimmable: yes

Our 4.5W filament globe lamp is the optimal replacement for traditional incandescent lamps due to its classic look. It is equipped with the latest 5th generation filament technology and thus has a high dimmer compatibility. Its color rendering with an RA value of 90 makes everything shine with true colors. The low power consumption of the filament is confirmed by the good energy efficiency class. The illuminant has an opalized glass for a shadow-free illumination.

If you would like to know with which dimmers this product is compatible, please follow the link to the test results from our own workshop.
