8,5W Normale Filament klar E27 1055lm 2700K

Our 8,5W filament standard lamp is the optimal replacement for traditional incandescent lamps due to its classic look. It is equipped with the latest 5th generation filament technology. Its color rendering with an RA value of 90 makes everything shine true to color. By removing the dimming function, it was possible to do without functionality not desired and thus offered even more attractive price.
