9W Normale Filament klar E27 1055lm 2700-2200K DTW

Our 9W Filament standard lamp is by your classic look the optimal replacement for traditional incandescent lamps. It is equipped with the latest filament technology and thus has a high dimmer compatibility. The filament has a Dim-To-Warm technology and is characterized with the lowering of the light color when dimming from 2,700K to 2,200K. The lamp changes light color when dimmed just like a traditional incandescent lamp. Its color rendering with an RA value of 90 makes everything shine with true colors. The Filament's low power consumption is confirmed by its good energy efficiency rating. The lumen package of our Filament can be compared with a 75 W traditional incandescent lamp. Its clear glass bulb exposes the sophisticated technology of the bulb.

Recommended dimmer: www.sigor.de/dimmerliste

1.055 lm luminous flux [lm] 9,00 Watt rated power

75 Watt equivalent incandescent lighting

2700-2200 K colour temperature Ra>90 colour rendering <6 sdcm colour consistency

300° beam angle

F27 base A60 outer bulb klar type of glass length 108 mm diameter 60 mm

IP20 type of protection

temperature range in operation -20° - 40°C

power factor 0.7 230 V AC voltage

50/60 Hz operating frequency

52 mA current

9 kWh/1000h energy consumption

warm-up time up to 60% of the full light output <0.5 s

<0.5 s starting time

Ø 15.000 h nominal life time L70B50 rated life time L70/B50
