3,8W Normale Filament matt E27 806lm 2700K dim

Dimmable: yes

Our new 3.8W **Filament standard lamp** not only impresses with its classic look, but also already meets the strict EU regulations for ecodesign and energy labeling for energy efficiency class A. The filament already achieves an efficiency of up to 213 lm/W.

This exceptional efficiency makes the lamp very economical to use and protects the environment compared to less efficient lamps. The lumen package of our filament can be compared with a 60 W conventional light bulb. The light source has internal matting, which reduces glare in the event of direct eye contact.
