8,5W Normale Filament klar E27 1055lm 2700K dim

Dimmable: yes

Our 8.5W Filament Full Spectrum standard lamp is the optimal replacement for traditional incandescent lamps due to its classic look. It is equipped with the latest 6th generation filament technology and thus has a high dimmer compatibility. Its color rendering with an RA value of 95 corresponds to the light spectrum of the sun and makes everything shine in true color. The low power consumption of the filament is confirmed by the good energy efficiency class. The lumen package of our Filament can be compared with a 60W conventional incandescent lamp. Its clear glass bulb reveals the sophisticated technology of the bulb.
