4,8W Normale Filament matt Ra97 E27 470lm 2700K

Dimmable: yes

Our 4.8W **filament standard lamp** is the ideal replacement for traditional incandescent lamps thanks to its classic look. It is equipped with the latest filament technology and is therefore highly dimmer-compatible. Its color rendering with an RA value of 97 lets everything shine in true color.

The Filament's low power consumption is confirmed by its good energy efficiency class. The lumen package of our Filament can be compared with a 40W conventional incandescent lamp. The light source has internal matting, which reduces glare from direct eye contact.
