Netzteil POWERLINE BASE 120W 24VDC

Our 120W **POWERLINE BASE** in 24V finds its application in the power supply of LED strips. The article group of POWERLINE BASE stands for a good price-performance ratio. It has IP20 protection and is therefore not suitable for outdoor use. The minimum load of the power supply is 10% of the total power. Our power supply is protected against short circuit, overload and overvoltage. Our power supply is considered EMC interference resistant, which means that our power supply will not disturb other devices by unwanted electrical or electromagnetic effects or be disturbed by other devices.

Especially important in the object: we offer 3 years warranty and vouch for the high quality workmanship and durability of this power supply.
